Marine Cyl 50-70

Marine Cyl 5070 is superior quality, high alkaline cylinder oils for the lubrication of slow-speed, cross-head marine diesel engines using heavy residual type of fuels. This range of diesel engine cylinder oils is formulated to meet the requirements of a wide range of engines under a variety of operating conditions

Marine Cyl 5070 is formulated using high quality, high VI paraffinic base oils and high alkaline detergent-dispersant additive packages

It is also approved by SULZER & MAN

Functional Characteristics

Excellent protection against corrosive wear by neutralizing and dissolving sulfur acids and minimizing port and piston deposits

Excellent oxidation resistance at high temperatures and high levels of detergency, alkalinity and load carrying ability

Typical Use

Marine Cyl 5070 is recommended for use as cylinder oils in high output crosshead engines using heavy type of fuel with high sulfur content

Marine Cyl series has a Total Base Number of 70 and meets the most demanding requirements of the latest types of turbo-charged cross-head engines operating at high outputs and thermal loads
